# HUBzero as basis for an open-source science gateway
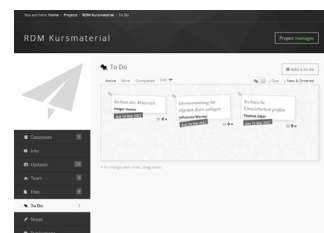

Holger Gauza, Jens Krüger, Johannes Werner, Fabian Wannenmacher, Thomas Zajac, on behalf of the BioDATEN consortium
High Performance and Cloud Computing Group, IT Center, University of Tübingen
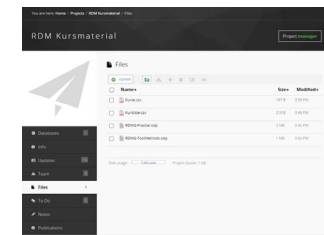

A Science Gateway serves as central entry point for the community

- Services: tools, storage, computation, data exchange, etc.
- Information: training material, documentation, Q&A, Wiki, tickets, etc.
- Support: project management, tickets, etc.
- Scientific extra value: metadata annotation, reusability, interoperability, etc.
