### Journal publication: embargo notice for dissertation

Author:	
Title of dissertation:	
Institute:	
Date of oral exam:	
Date dissertation handed in:	
Release date:	

My dissertation is connected to the publication in a scientific journal. In order to keep the obligations of the contract, the electronic version of my dissertation may not be published until after the release date mentioned above.

I therefore request the Universitätsbibliothek not to make public the electronic version of my dissertation until after the release date. The embargo can be granted for a maximum of 12 months. However, print copies as well as descriptive metadata (title, abstract, table of contents, etc.) are publicly available immediately after submission to the library.

I am aware that publication as required by the doctoral regulations only occurs after removal of the embargo notice. Only after this date there is a right to use the title of Doctor, unless the doctoral regulations allow the title to be used provisionally.

If the embargo on publication of my dissertation before the release date is no longer necessary, I will immediately inform the Dissertationsstelle and request in writing (at the address listed above) the lifting of the embargo.

-----  
Place; Date

-----  
Signature of the doctoral candidate

The embargo on publication of the dissertation is approved by:

-----  
Doctoral supervisor

-----  
Signature of supervisor
