

Bulletin of Online Emendations to Papyri*

5.1 (January 7, 2016)

Rodney Ast, Lajos Berkes, and James M.S. Cowey (eds.)

Institut für Papyrologie, Universität Heidelberg

Marstallstrasse 6, D-69117 Heidelberg

This list contains proposed emendations to Greek and Coptic texts that were entered online via the [Papyrological Editor \(PE\)](#). It includes those taken up by the system between December 4, 2014 and January 7, 2016, as well as a number of proposals that were adopted earlier, but not picked up in previous bulletins.

All new readings have been vetted by members of the PE's editorial board. They have not appeared previously in print and are presented together here for ease of reference and review. The arguments and supporting evidence that were adduced in order to substantiate them can be found in the "Editorial History" section at the bottom of the page following each text in the databank. At the end of the bulletin, notice is given of several papyri, which are housed in the University Library in Gothenburg, that have been edited for the first time using the PE. These are full editions, consisting of introduction, text, translation, and commentary.

Note on conventions: when a contributing author states explicitly that the proposed emendation has been checked against a published or publicly accessible photo or digital image we indicate this with the phrase '(from photo)'. Information about the photo or a link to the image (or both) can be found at papyri.info in the header of the text in question. If an author has consulted a photo that is not in the public domain, we indicate this with '(from a photo)'. If a reading has been verified against the original we write '(from original)'.

Papyrological citations are provided in accordance with J.D. Sosin et al. (eds), [Checklist of Editions of Greek, Latin, Demotic and Coptic Papyri, Ostraca and Tablets](#).
