

Bulletin of Online Emendations to Papyri*

6.1 (March 22, 2017)

Rodney Ast, Lajos Berkes, and James M.S. Cowey (eds.)

Institut für Papyrologie, Universität Heidelberg

Marstallstrasse 6, D-69117 Heidelberg

This list contains emendation proposals to Greek and Coptic texts that were entered online via the [Papyrological Editor \(PE\)](#) and subsequently taken up by the system between January 7, 2016 and March 22, 2017. It also provides citations for born-digital editions and re-editions, which are recorded at the end of the bulletin.

All new readings have been vetted by members of the PE's editorial board. They have not appeared previously in print and are presented together here for ease of reference and review. The arguments and supporting evidence that were adduced to support them can be found in the "Editorial History" section at the bottom of the page following each text in the databank.

Note on conventions: when a contributing author states explicitly that the proposed emendation has been checked against a published or publicly accessible photo or digital image we indicate this with the phrase '(from photo)'. Information about the photo or a link to the image (or both) can be found at papyri.info in the header of the text in question. If an author has consulted a photo that is not in the public domain, we indicate this with '(from a photo)'. If a reading has been verified against the original we write '(from original)'.

Papyrological citations are provided in accordance with J.D. Sosin et al. (eds), [Checklist of Editions of Greek, Latin, Demotic and Coptic Papyri, Ostraca and Tablets](#).
